The Alaska Psychiatric Institute (API) provides emergency and court-ordered inpatient psychiatric services to support recovery from mental illness. The facility serves a critical role in Alaska as the only state-run psychiatric hospital, and requires additional resources to keep up with the demand for its services.

API can only oprate 58 of its 80-bed capacity with current staffing levels. Alaskans who are in need of acute mental health services are unable to access these services, and are currently being housed in emergency departments across the state.

The department recommends a three-pronged approach to address the needs of these patients: 1.) Increasing the number of nursing positions at the hospital; 2.) Offering a competitive wage to nurses employed at the facility; and 3.) Providing recruitment incentives to enhance our ability to hire and keep nurses employed at the facility.

Nursing positions and competitive wages

API has 52 registered nurse (RN) positions; however, there are 10 nursing vacancies and 9 additional nurses on extended leave (i.e. FMLA and Worker's Comp, etc.). This means API has 33 RNs, not 52, available to work. While API has been able to contract with five temporary RNs, the hospital is unable to reopen beds without additional nursing staff. Twenty RN positions are needed to ensure a full complement of nurse's onsite, allowing all 80 beds at the facility to be open and available. However, making more positions available is not an effective solution if the wages for these positions are not competitive with nursing jobs elsewhere. A salary study for the psychiatric nursing positions is underway as a priority action item. Nonetheless, we anticipate the results of such a study could not be implemented until early FY2019. In the meantime, our best estimate is that raising the salaries of the existing 52 RN positions to a competitive level would cost a total of \$0.7 million. (The salary increase is based on best estimates of the current market).

The estimated cost of both adding extra psych nurse positions to ensure there is always a full complement of nurses available and paying them a competitive wage is:

New RNs at a competitive wage 20 RN IIs =\$2.4 million

Funding for this request would be broken out as follows:

22% Statutory Designated Program Receipts

Sec24b Ch19 SLA2018 Pg32 Ln5-9 (SB142)

The sum of \$65,000 is appropriated from the marijuana education and treatment fund (AS 43.61.010(f)) to the Department of Health and Social Services, behavioral health, behavioral health treatment and recovery grants, for development and implementation of training for screening, brief intervention, and referral to treatment for the fiscal year ending June 30, 2019.

Sec38b Ch19 SLA2018 Pg43 Ln2-5 (SB142)

The appropriations made in sec. 24 of this Act are contingent on the passage by the Thirtieth Alaska State Legislature in the Second Regular Session and enactment into law of a bill establishing the marijuana education and treatment fund and a comprehensive marijuana use education and treatment program.

Sec9 Pg9 Ln26 of SB104 establishes the marijuana education and treatment fund.

Sec24b Ch19 SLA2018 Pg32 Ln5-9 (SB142)

The sum of \$65,000 is appropriated from the marijuana education and treatment fund (AS 43.61.010(f)) to the Department of Health and Social Services, behavioral health, behavioral health treatment and recovery grants, for development and implementation of training for screening, brief intervention, and referral to treatment for the fiscal year ending June 30, 2019.

Sec38b Ch19 SLA2018 Pg43 Ln2-5 (SB142)

The appropriations made in sec. 24 of this Act are contingent on the passage by the Thirtieth Alaska State Legislature in the Second Regular Session and enactment into law of a bill establishing the marijuana education and treatment fund and a comprehensive marijuana use education and treatment program.

Sec9 Pg9 Ln26 of SB104 establishes the marijuana education and treatment fund.

Sec10 Pg10 Ln5 of SB104 adds a comprehensive marijuana use education and treatment program to the duties of the Department of Health and Social Services.

Aligning federal authority to meet federal grant award obligations. With the ever increasing number of federal awards available to the state, the division is aligning federal spending authority to the most useful and appropriate component within the division. Currently, the division is submitting an application for "Healthy Transitions: Improving Life Trajectories for Youth and Young Adults with Serious Mental Disorders Program" that would align with services provided to our severely emotionally disturbed youth population.

This position supports behavioral health reform, specifically the development of the 1115 waiver. Section 1115 of the Social Security Act gives the Secretary of Health and Human Services authority to approve experimental, pilot, or demonstration projects that are found by the Secretary to assist in promoting the objectives of the Medicaid program. The purpose of these demonstrations, which give states additional flexibility to design and improve their programs, is to demonstrate and evaluate state-specific policy approaches to better serving Medicaid populations. This position will continue this work within the division of Behavioral Health.

This is an ongoing project through the Department of Health and Social Services, Division of Behavioral Health for technical assistance to develop supported housing for Trust beneficiaries. Recognizing the affordable-and-supported-housing crisis in Alaska, the Trust and Behavioral Health advocated for the integration of supported housing - now the 'Supported Housing Office' - to develop housing and support opportunities for consumers struggling with mental illness and/or substance abuse. The stated mission of this office is to aggressively develop the expansion and sustainability of supported housing opportunities statewide for Behavioral Health consumers in safe, decent, and affordable housing in the least restrictive environment of their choice that is supportive of their rehabilitation process and to receive individualized community services and supports.

Federal Authority for the Boards and Council is now allocated through a reimbursable services agreement with the Behavioral Health Administration component. The only federal authority still needed is for positive timekeeping for block grant activities outside the normal scope of the reimbursable services agreement, as well as Medicaid administrative positive timekeeping while working on Medicaid expansion initiatives and the 1115 Waiver. This transfer moves the uncollectable balance to the grants line of the Behavioral Health Treatment & Recovery Grants component where it will be utilized to meet the agency's mission.

The Division of Behavioral Health is implementing a more streamlined approach to its budget by centralizing travel, services, and commodities expenditure object types within the Behavioral Health Administration component. The centralization of these expenditures into one component will create more efficiencies in preparing and executing reimbursable services agreements, contracts, and commodities by utilizing existing subunit chart of account elements to track when an expenditure is Residential Child Care, Prevention, or Treatment and Recovery related.

With the recent re-allocation of administrative support positions within Behavioral Health Administration to other sections (two positions to the Research and Analysis section, and one position to Alaska Psychiatric Institute), the need to reduce redundancies and create efficiencies is more necessary as there are fewer positions to support the preparation and submission of invoices, and expenditure and revenue reporting.

The division is aligning federal authority to meet federal grant award obligations. With the ever increasing number of federal awards available to the state, the division is aligning federal spending authority to the most useful and appropriate component within the division. Currently, the division is submitting an application for "Healthy Transitions: Improving Life Trajectories for Youth and Young Adults with Serious Mental Disorders Program" that would align with services provided to our severely emotionally disturbed youth population.

Transfer a full-time, range 20, Anchorage Protective Services Specialist IV from Front Line Social Workers to Children's Services Management component as a full-time, range 20, Anchorage Safety Officer without a transfer of funds.

The Office of Children's Services (OCS) is receiving an increase in threats to employees and Occupational Safety and Health Administration (OSHA) complaints. OCS Management and Human Resources do all they can to address obvious health and safety issues and respond to OSHA complaints as they arise, but neither group has the resources to proactively address the issue or the requisite expertise to implement best practices. A dedicated, full-time safety officer who is an expert in workplace safety can help the division eliminate and/or mitigate risks in a cost effective manner.

This individual will:

Work with each of the division's 25 office locations to ensure safety plans are up to date and that all staff are aware of what to do in the event of an emergency.

Develop and deliver initial hire safety training to all new employees and provide periodic refresher training to existing employees.

Investigate formal and informal safety complaints and represent the division in administrative proceedings.

Provide litigation support to the Department of Law when OCS is involved in litigation relating to workplace safety issues.

Participate in Labor-Management Committee meetings. These meetings give front-line employees and their union representatives a voice in OCS safety issues. Ensuring their participation will help management address safety issues at the lowest (and lowest cost) levels possible. These meetings also provide employees the opportunity to present safety concerns, which can result in fewer costly formal complaints to agencies like OSHA and AKOSH.

Identify cost-effective solutions to safety problems. For instance, inexpensive technology and free administrative fixes can often solve safety problems that would otherwise necessitate building remodels. Experienced safety professionals can readily identify such low or no-cost fixes.

Partner with outside agencies to ensure workers have adequate resources in the most remote locations. The position can coordinate with local law enforcement agencies and tribes to make sure workers have adequate resources and safety plans in rural communities with no state office. Currently, employees may be stuck with nowhere to seek shelter and safety in the event of a violent threat in such a village.

Coordinate with other State of Alaska departments that have resources in remote locations (such as office space to sleep in or vehicles to borrow). One of our current problems involves employees being stuck outside in sub-zero temperatures when rides from non-SOA personnel fall through.

Coordinate with Human Resources to ensure accountability with regard to workplace safety.

Transfer a full-time, range 20, Anchorage, Social Services Program Coordinator from the Front Line Social Workers component as a Social Services Program Officer, range 21 in Children's Services Management, without a transfer of funds.

The Office of Children's Services recently completed a federal program review in which Continuous Quality Improvement was identified as a significant programmatic need. Continuous Quality Improvement will be incorporated into the agency Performance Improvement Plan to be submitted during calendar year 2018.

The Social Services Program Officer will create a Continuous Quality Improvement unit and have strong statewide management and oversight over all data matters, to include: Management of the Statewide Automated Child Welfare Information System; the Quality Assurance performance audits; federal Adoption Foster Care and Adoptions Reporting System; National Child Abuse and Neglect Database System; National Youth in Transition Databases. Additionally, this position will work closely with other Program Administration staff on the development, implementation, and data management for federal reporting through the Child and Family Services Plans, Child and Family Services Reviews, Performance Improvement Plans, and Annual Program and Services Reports.

The position will move from a single program focus to a broad statewide focus over many data reporting, information system, and Continuous Quality Improvement strategies, with significant management and supervisory responsibilities. The Social Services Program Officer will be supervised by the agency Deputy Director.

Transfer from Children's Services Training to ensure alignment with anticipated personal services expenditures.

Align Expenditures for Tribal Compacting and Lease Obligations

LIT 0.0 -2,834.0 0.0 2,834.0 -32.3 32.3 0.0

Align expenditure requirements for the Alaska Tribal Child Welfare Compact, lease obligations, and office expansions for Anchorage, Bethel, Nome, and Wasilla. and personal services.

Transfer Protective Services Specialist IV (06-3711) as Safety Officer to Children's Services Management
Trout 0.0 0.0 0.0 0.0 0.0

Transfer a full-time, range 20, Anchorage Protective Services Specialist IV from Front Line Social Workers to Children's Services Management component as a full-time, range 20, Anchorage Safety Officer without a transfer of funds.

The Office of Children's Services (OCS) is receiving an increase in threats to employees and Occupational Safety and Health Administration (OSHA) complaints. OCS Management and Human Resources do all they can to address obvious health and safety issues and respond to OSHA complaints as they arise, but neither group has the resources to proactively address the issue or the requisite expertise to implement best practices. A dedicated, full-time safety officer who is an expert in workplace safety can help the division eliminate and/or mitigate risks in a cost effective manner. This individual will:

Work with each of the division's 25 office locations to ensure safety plans are up to date and that all staff are aware of what to do in the event of an emergency.

Develop and deliver initial hire safety training to all new employees and provide periodic refresher training to existing employees.

Investigate formal and informal safety complaints and represent the division in administrative proceedings.

Provide litigation support to the Department of Law when OCS is involved in litigation relating to workplace safety issues.

Participate in Labor-Management Committee meetings. These meetings give front-line employees and their union representatives a voice in OCS safety issues. Ensuring their participation will help management address safety issues at the lowest (and lowest cost) levels possible. These meetings also provide employees the opportunity to present safety concerns, which can result in fewer costly formal complaints to agencies like OSHA and AKOSH.

Identify cost-effective solutions to safety problems. For instance, inexpensive technology and free administrative fixes can often solve safety problems that would otherwise necessitate building remodels. Experienced safety professionals can readily identify such low or no-cost fixes.

Partner with outside agencies to ensure workers have adequate resources in the most remote locations. The position can coordinate with local law enforcement agencies and tribes to make sure workers have adequate resources and safety plans in rural communities with no state office. Currently, employees may be stuck with nowhere to seek shelter and safety in the event of a violent threat in such a village.

Coordinate with other State of Alaska Departments that have resources in remote locations (such as office space to sleep in or vehicles to borrow). One of our current problems involves employees being stuck outside in sub-zero temperatures when rides from non-SOA personnel fall through.

Coordinate with Human Resources to ensure accountability with regard to workplace safety.

The Division of Juvenile Justice will eliminate Youth Detention and Treatment in the Nome Youth Facility and provide escorted transportation to a detention facility in Anchorage, Bethel, or Fairbanks. The facility has historically been underutilized with youth detained 64 times in FY2018. This would eliminate 16 full-time and two part-time positions.

Two full time and one on-call non-permanent Juvenile Justice Officer positions would remain at the facility to assist with secure escorted transports to Anchorage, Bethel, or Fairbanks facilities as well as secure escorted transports back to court hearings in Nome. When escort transports are not necessary, the positions would assist with transitional services for youth stepping down from secure institutional treatment and residential treatment back to their home communities.

Youth currently receiving secure treatment services at the Nome Youth Facility would be reclassified and relocated to another Division of Juvenile Justice secure treatment facility in Fairbanks, Anchorage, Bethel, or Juneau.

175.0

The estimated cost for escort travel and expenses is approximately \$300.0 and ongoing maintenance and utility costs are estimated to be \$150.0.

Transfer to align authority for fees collected from clients: \$450.0 of general fund program receipt authority to Women, Children, and Family Health and \$300.0 of general fund program receipt authority to Bureau of Vital Statistics.

In FY2017, \$1,000.0 in general fund program receipt authority was added to Nursing. All methods of increasing Nursing's collection of fees for services have and continue to be explored. This reduction in authority will have no negative impact on Public Health Nursing service delivery or on the clients we serve.

General fund program receipts are collected in Women, Children, and Family Health for the Newborn Screening program.

General fund program receipts are collected in Bureau of Vital Statistics for birth and death certificates and marriage licenses, along with other fees.

Sec24 Ch19 SLA2018 Pg31 Ln31 (SB142)

The sum of \$760,000 is appropriated from the marijuana education and treatment fund (AS 43.61.010(f)) to the Department of Health and Social Services, public health, public health administration, for implementation and administration of a comprehensive marijuana use education and treatment program for the fiscal year ending June 30, 2019.

Sec38 Ch19 SLA2018 Pg43 Ln2 (SB142)

The appropriations made in sec. 24 of this Act are contingent on the passage by the Thirtieth Alaska State Legislature in the Second Regular Session and enactment into law of a bill establishing the marijuana education and treatment fund and a comprehensive marijuana use education and treatment program.

Sec9 Pg9 Ln26 of SB104 establishes the marijuana education and treatment fund.

Sec10 Pg10 Ln5 of SB104 adds a comprehensive marijuana use education and treatment program to the duties of the Department of Health and Social Services.

The 2018 Legislature worked on SB128, an act establishing the marijuana education and treatment fund and adding to the list of duties of the Department of Health and Social Services the administration of a comprehensive marijuana use education and treatment program. Late in the legislative session, the contents of SB128 were included in SB104, which was passed and signed into law.

In FY2020 and future years, the Division of Public Health will administer a marijuana use education treatment program that includes the following:

- (A) a community-based marijuana misuse prevention component that includes a youth services grant program;
- (B) marijuana public education designed to communicate messages to help prevent youth initiation of marijuana use, educate the public about the effects of

The vaccine assessment program allows the department to purchase and distribute recommended pediatric vaccines and select adult vaccines to healthcare providers. The program is fully funded by the state Vaccine Assessment Account through assessments from healthcare payers and increases access to vaccines for Alaskans while lowering overall vaccine costs by 20-%-30%. Moving the program to the lanugage section of the bill allows for the program to adapt to changing needs of healthcare providers and vaccine consumers.

Transfer from Nursing to Bureau of Vital Statistics to align authority with fees collected from clients.

General fund program receipts are collected in Bureau of Vital Statistics for birth and death certificates and marriage licenses, along with other fees. These receipts support the daily operations for Bureau of Vital Statistics.

1092 MHTAAR

The Department of Health Social Services (DHSS), Division of Senior and Disabilities Services will advance the state's implementation and use of the National Core Indicators. The National Core Indicators represents a major effort among states to standardize the collection of performance and outcome measures for

development of identified services within the recipient's plan of care. Of importance is that this new assessment tool will allow SDS to improve our efficiencies and reform our payment system. One-time costs to implement this new assessment tool in FY2017 will cover software development, development of algorithms

1007 I/A Rcpts		-4.8										

In FY2019, Public Affairs personal services are transitioning to a chargeback model. This transfer from Public Affairs to Information Technology Services aligns interagency receipt authority to support the chargeback model.

In FY2017, Information Technology Services personal services transitioned to a chargeback model. In FY2018, the Office of Information Technology began its statewide consolidation of information technology positions. Those positions that are consolidated will provide Information Technology support to the departments through chargeback reimbursable service agreements.

Departmental Support Services federal revenue collection is largely indirect. Expenditures are allocated across benefitting programs based on federally approved allocation methodologies housed within the Public Assistance Cost Allocation Plan.

Based on historical data, projected Information Technology Services revenue collections are 30 percent federal and 70 percent general fund. Transferring federal and general fund match receipt authority to Information Technology Services aligns authority with the anticipated cost allocation and aligns expenditure authority for the Office of Information Technology chargeback for Information Technology services.

Departmental Support Services federal revenue collection is largely indirect. Expenditures are allocated across benefitting programs based on federally approved allocation methodologies housed within the Public Assistance Cost Allocation Plan.

Based on historical data, projected Administrative Support Services revenue collections are 40 percent federal and 60 percent general fund match. Similarly, the Commissioner's Office revenue collections are 40 percent federal and 60 percent general fund match. Transferring federal receipt authority to the Commissioner's Office aligns authority with the anticipated cost allocation and aligns expenditure authority.

In FY2017, Facilities Management was delegated the management of leasing activities. The leasing activities are allocable and allow eligibility for partial federal reimbursement. In FY2018, the rate of federal collection for these activities was lower than anticipated making funding available to transfer to Information Technology Services to support a 30 percent federal collection rate in personal services and align authority with the anticipated cost allocation.

A transfer of a Safety Officer (06-0114) to Administrative Support Services without funding makes capital improvement project authority available to transfer to Information Technology Services.

In FY2017, Information Technology Services personal services transitioned to a chargeback model. In FY2018, the Office of Information Technology began its statewide consolidation of information technology positions. Those positions that are consolidated will provide Information Technology support to the departments through chargeback reimbursable service agreements.

Departmental Support Services federal revenue collection is largely indirect. Expenditures are allocated across benefitting programs based on federally approved allocation methodologies housed within the Public Assistance Cost Allocation Plan.

Based on historical data, projected Information Technology Services revenue collections are 30 percent federal and 70 percent general fund. Transferring federal and general fund match receipt authority to Information Technology Services aligns authority with the anticipated cost allocation and aligns expenditure authority for the Office of Information Technology chargeback for Information Technology services.

The Shared Services organization began in FY2018 and provides back-office administrative functions common to all state agencies. This organization model builds a smarter Alaska by reducing administrative costs, improving service quality, and enabling the effective delivery of front-line state services.

The Office of Information Technology (OIT) was formed in accordance with Administrative Order 284, and is in the process of adopting best practices and centralizing the organization of information technology (IT) resources statewide. This organizational model builds a smarter Alaska by reducing overall IT costs, strengthening IT functions, and maximizing efficiency.

The FY2019 budget included a statewide unallocated reduction to reflect savings achievable as a result of these efficiency efforts. An initial distribution of the savings has been made at the start of FY2019. The remaining savings will be distributed through the year as areas of efficiency continue to be identified.

SB 74 Sec34(b) allows the department to assess interest on recoveries for audits performed under AS 47.05.200 as well as other audits and reviews conducted by the state and federal government. There is no additional cost to the department to implement interest penalties on identified overpayments, but recoveries will increase. The department estimates it will take three years to reach the current volume of outstanding appeals subject to interest penalties. Interest penalty recoveries are calculated by taking the current amount of outstanding appeals and applying an estimated recovery percentage. The result is multiplied by the

statutory rate for post-judgment interest of 3.75% and phased in over a period of three years, as shown below. Recoveries will be categorized as revenue receipts, recorded under new fund code #1247. Medicaid Monetary Recoveries.

Sec36 47.05.270 Medical assistance reform program (a)(2) requires the department to provide an electronic distribution of an explanation of medical assistance benefits to recipients for health care services received under the program. It is the intent of the department to fully implement this section of statute through the myAlaska portal. The department estimates that it will cost \$707.5 (90% federal/10% GF) to fully implement the electronic distribution of an explanation of medical assistance benefits in FY2017. After the initial set-up, estimated on-going costs are the concurrent user license, \$76.5, and the yearly maintenance fee, \$17.0, for a total of \$93.5 (50% federal/50% GF) annual costs.

Section 37 directs the department to implement the Primary Care Case Management system authorized under AS 47.07.030(d). This is a foundational component to other initiatives and projected savings. This system would assign Medicaid enrollees to a case manager in order to increase use of primary and preventive care, and decrease the use of specialty care and hospital services. The department proposes expansion of an existing case management contract, at \$500.0 across FY2017-2018 (50% federal/50% GF match). The contractor will case manage at \$3.85 per member per month to approximately 30,000 recipients. This approach would reduce implementation timelines.

The Prescription Drug Monitoring Program (PDMP) is an integral part of this initiative, as it is required to help prevent the misuse and abuse of opioids prescribed or administered through emergency departments. Access to the PDMP database by physicians and pharmacists could be improved if the current stand-alone system was integrated into the Health Information Exchange (HIE). Annual operating costs are \$20.0. Additional one-time costs are:

(A) FY2017 PDMP system and interface to the HIE is \$285.0 (90% federal/10%GF)

(B) FY2017 costs to connect pharmacies is \$480.0 (90% federal/10% GF)

Section 39 (47.07.039)(c) authorizes the department to contract with one or more entities to demonstrate the use of local, provider-led coordinated care entities that agree to monitor care across multiple care settings and that will be accountable to the department for the overall cost and quality of care. This demonstration project will be implemented in three regions of the state. Planning and development would begin in FY2017, with implementation starting in FY2019. An estimated 30,000 Medicaid recipients would be enrolled to receive services through this demonstration project. For purposes of estimation, the department assumes the entities would be reimbursed on a fee-for-service basis plus shared savings, with the entities receiving a portion of any savings accrued to the state Medicaid program, for the first two years. The department's best estimate at this time is approximately \$1,500.0 in GF savings. The state's fiscal agent will require three additional staff members for the additional work in provider enrollment, claims processing, and telephone inquiries as a result of the change for an increased contract amount of \$318.0 (50% federal/50% GF). These individuals will provide support across the primary care case management project, health homes, and the hospital emergency room project as well.
